

Attention installers!

New REC SunSnap app now available!

New tool for solar installers simplifies admin work and boosts sales

REC Group is launching the new REC SunSnap app to help installers conveniently register, record and retrieve examples of their REC installations. Registering projects is as simple as scanning or keying in a barcode. A few quick snaps from the roof during installation adds photos of a job well done and can be used as a sales tool for future customers. REC SunSnap also enables certified REC Solar Professional installers to exclusively provide an extended product and labor warranty.

What makes REC SunSnap the must-have app for solar installers?

- 1. REC SunSnap stores all your projects in a convenient and structured way**

Registering REC projects can be done from anywhere in a matter of minutes

Records all REC projects with serial numbers in one place

Reduces work for installers in case of claim

- 2. REC SunSnap showcases your success stories and can boost sales**

Snap a photo of your installation when registering projects

Build a portfolio of high-quality REC installations

Easily retrieve past projects using list or map view to show to potential customers

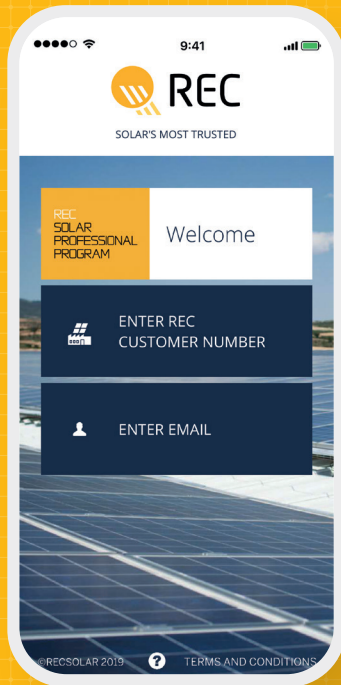

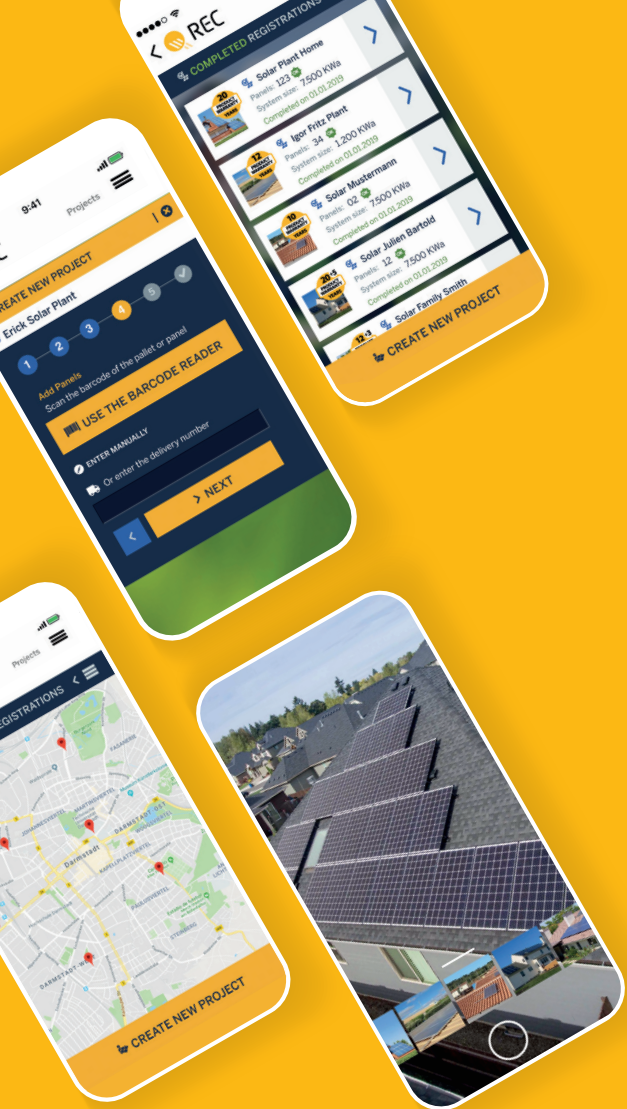

- 3. Extended product and labor warranty on offer for certified installers**

Exclusive sales advantage for certified REC Solar Professional installers

Gain a 20+5 year product warranty and 10 year labor warranty

Homeowners can immediately receive their warranty certificate straight away

REC SunSnap is
available for iOS and
Android mobile devices.

About REC

Founded in Norway in 1996, REC Group is a leading vertically integrated solar energy company. Through integrated manufacturing from silicon to wafers, cells, high-quality panels and extending to solar solutions, REC Group provides the world with a reliable source of clean energy. REC's renowned product quality is supported by the lowest warranty claims rate in the industry. REC Group is a Bluestar Elkem company with headquarters in Norway and operational headquarters in Singapore. REC Group employs 2,000 people worldwide, producing 1.5 GW of solar panels annually.

About the REC Solar Professional Program

The REC Solar Professional Program is a unique installer certification program, which ensures solar installers are equipped with the knowhow and best practices to install REC panels. In addition to the certification training, we offer a marketing welcome pack, regular video trainings, as well as improved compensation and warranty conditions. Launched in Europe, the program has expanded to the U.S.A., Australia, Japan, the Philippines, Indonesia, Singapore, Taiwan and India with plans to continue growing.
