

## REC Group Strengthens Presence in Taiwan with Appointment of Hans Liu as Country Head

**Taipei, Taiwan, December 8, 2023** – [REC Group](#), an international pioneering solar energy company, is pleased to announce the appointment of Hans Liu as the new Country Head for Taiwan. With over 14 years of experience in renewable energies, in particular solar, Liu brings a wealth of knowledge and expertise to his new role.

Liu's extensive background in the solar industry includes positions at Neo Solar Power in Taiwan, SunSpark in the US, and Vena Energy in Singapore, where he served as General Manager. He holds a Master of Science in Technology Leadership from Brown University in Providence, US, and a Master's degree in Renewable Energy and Sustainability Systems from Penn State University.

As REC Group expands its presence in Taiwan, Liu's appointment comes at a crucial time. The company has been operating in the market for 10 years, offering a robust Channel Program that supports distributors and REC certified installers. The company initially introduced its legendary REC Peak Energy Solar panels to the market and has since continued to set new technology benchmarks, including its advanced [REC Alpha HJT technology](#) today.

Gus Paviani, Head of Apac and Japan at REC Group, expressed his confidence in Liu's ability to drive REC's premium position in Taiwan. "It is important for us to have someone on board who well understands the benefits of advanced technologies such as heterojunction solar cell technology and its potential for future technology leaps," Paviani stated. "Liu speaks our language, and I am confident that he will be a strong added value also to our teams."

"I am honored to join REC Group and lead the team in Taiwan," said Hans Liu. "REC has a strong reputation for delivering high-quality solar solutions, and I am excited to contribute to the company's continued success in Taiwan."

With Liu at the helm, REC Group aims to continue setting new technology benchmarks and driving energy transitions for communities in Taiwan. The company remains committed to providing the most innovative solar technology to homeowners and businesses, ensuring maximum benefits for those embracing solar energy.

**About REC Group:**

REC Group is an international pioneering solar energy company dedicated to empowering consumers with clean, affordable solar power through high-quality solar panels with a leading power density. As Solar's Most Trusted, REC is known for its patented innovations and multiple award-winning products with reliable long-term performance. The cornerstone for REC's strong reliability is advanced and highly efficient manufacturing using Industry 4.0 practices. Founded in 1996 in Norway, REC has always been committed to a low carbon footprint in its solar materials and panels. REC is headquartered in Norway with operational headquarters in Singapore and regional hubs in North America, Europe, and Asia-Pacific. As of December 2021, REC is part of Reliance Industries Limited, India's largest private sector company with revenues of USD 118.6 billion.
